

JOB POSTING

Position: Field Applications Engineer

Opening: Immediately

Closing: February 31 2009

Salary: Determined by qualifications and experience

US citizenship required

BACKGROUND

Engineering Design Team, Inc. (EDT) specializes in high-speed interface products that link devices such as digital cameras, high-resolution scanners, simulation systems, test systems, and telemetry receivers to almost any computer. Since our founding in 1987, EDT has aspired to provide limitless interface solutions to scientists and engineers worldwide in the scientific, industrial and military communities.

JOB OVERVIEW

We are looking for a Field Applications Engineer who will provide technical expertise and support to our sales team in promoting our digital video products. The FAE will be expected to travel to customer locations and work closely with our sales team on both pre and post-sales activities.

JOB FUNCTION AND RESPONSIBILITIES

- Provide technical advice and support regarding the technology and engineering of our products in order to promote, support, and service the sale of our products
- Support customers in new designs by guiding the customer based on their requirements
- Demonstrate and integrate our products with customer cameras
- Develop new design wins for our company
- Write product app notes and white papers
- Utilize field experience to support EDT's R&D efforts
- Provide post sales support including installation and training to customers
- Provide technical support to sales
- Offer solutions that meet customer needs
- Travel to customer sites and trade shows as needed to coordinate duties listed above

EDUCATION AND EXPERIENCE

- BA/BS Degree or higher preferred
- 2 to 5 years of related experience
- Experience with digital video/cameras particularly Camera Link
- Must be proficient in MS Excel, Word and PowerPoint
- Linux/Unix and Windows operating environments
- Installing, configuring, and diagnosing installation problems with hardware device drivers
- Using advanced text editors such as EMACs, VI or jedit
- C and shell programming experience a plus

TRAVEL REQUIREMENTS

This position requires domestic and limited international travel

Applicants are requested to submit a cover letter and resume to [edt_careers @ edt.com](mailto:edt_careers@edt.com)
